

Hello, my name is Joseph Trevon Butler.

I will be teaching all students from grade 1 and 2 in English expression I and II. I am from North America, my hometown is South Carolina. I am twenty-two years old and is an African American. I was born oversea in the country of Turkey. I have traveled around the world throughout my early childhood from Belgium, England, Hawaii, New York, Virginia, Georgia, and North Carolina. What I like to do on my free time is to play video games. My favorite game genres are fighting, action, racing, and rhythm games. I watch anime and read manga from any genre. My favorite anime is the entire Dragon Ball series from Akira Toriyama. I play plenty of sports like baseball, basketball, American football, soccer, bowling, and track and field. My three favorite sports are dodge ball, kickball and cross country. I like to act, mainly voice act whenever I watch anime or play video games. In high school I was the drama club president for three years. I love to write and create stories and draw characters, hoping to create my own manga and anime. I have been drawing throughout most of my life, and have my college degree in Media Arts and Animation.

What I like about Japan are the foods. My favorite happens to be sushi, ramen, and fried chicken and pork curry. I would like to go to as many Japanese festivals and conventions as possible. I like the amazing arcades in Japan, as well as the music. I'm interested in Japanese culture and want to learn the language. I also like the locations, Japan is such a beautiful place and I want to explore all of it. I'm excited to meet all of you in class. I hope we'll all get along and I believe we'll all enjoy learning English together.
